

Small and Craftsman pack SIT®-Bits

Advantages

- SIT®-Bit for chipboard screws VELOX® SIT (=AW recess from Würth)
- Significantly improved working comfort, because the screw easily gets stuck on the bit and cannot tumble
- Perfect power transfer due to conical form; the SIT®-Bit centers itself, the flanks also transfer high screw-in moments optimally
- Minimal wear and tear of the bit due to perfect fit between bit and screw
- Robust plastic box with EURO-punching
