HECO-TOPIX®-plus Post screws

Product information

- For fastening of timber posts on to steel base plates, post supporters and rammed base studs
- Fastening of additional means of construction like props or steel braces.
- Improved corrosion protection through HP-coating
- Flange head screw with reinforced shaft under the head, for a better centering and flat pressing of the head on to fixture
- Quick mounting without predrilling
- Calculation certificates via HECO HCS or calculation service
- Approved and monitored product (CE-marking)

The ideal screw for use in wooden connectors outdoors

Flange head

Higher load transmission due to the increased clamping surface of the head

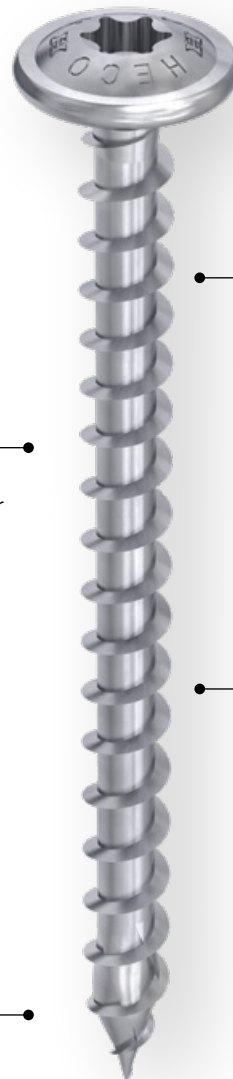

MagicClose®

Patented full thread pulls timber fixtures together without gaps and without pretension (Ø6 mm only)

HECO-TOPIX tip

Eliminates the need for pre-drilling, reduces the risk of the wood splitting

PerfectPitch®

Optimal thread pitch for every screw length

HP-coating

For an improved corrosion protection
