Retailers

Access to over 300 manufacturers

As a retailer, online Market gives to access to products from over 300 manufacturers in the B2B sector. Simply select the products you want and use a checkout process that incorporates the entire ordering and purchasing process. You can also access the master data provided by the manufacturers. You can then conveniently transfer this data into your own systems. This creates a basis for you to set up the ideal, sales-boosting offline and online channels. It also simplifies your internal sales processes in your ERP system.

Features at a glance

- Choose products from over 300 manufacturers in the B2B sector
- Manage the complete ordering and purchasing process
- Retrieve all manufacturer master data

Your benefits

- Reviewing the complete offering of all manufacturers couldn't be simpler
